## Product Sheet

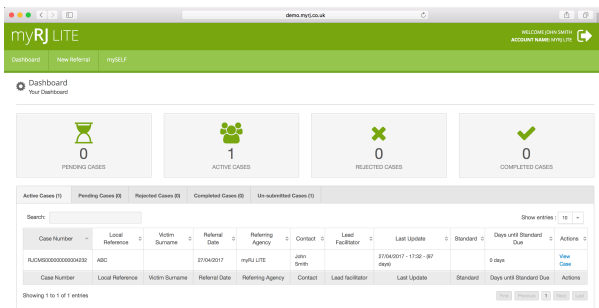

# Support Restorative Service Delivery

**Secure case management has never been simpler.**

With your own unique username and password, you can enter the system to start capturing all your important case data, from case participants to supporters.

Everything is at your fingertips inside this secure case management from the award winning creators of myRJ!

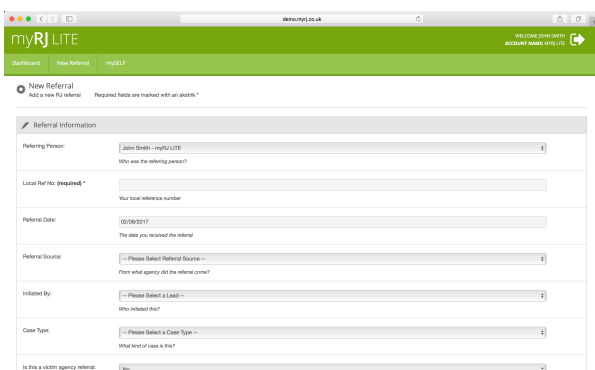

**Keep informed at a glance.**

Our in-depth dashboard will display all the cases you enter onto the system into an easy to understand and read format.

Displaying important information first such as dates or last case update or log entry.

All information is sortable to give you total control about what information you are viewing.

**Advanced information capture.**

All our capture forms are updated to reflect the industry standard giving you the opportunity to gather relevant and useful information to work on a Restorative Intervention.

From information about the incident or offence data to in depth details about the participants we give you total control to get it right.

## myRJ Lite Overview

myRJ Lite has been carefully developed to provide all the amazing major features of the original myRJ system but with micro practices and sole practitioners in mind.

Boasting the same top class dedication to security standards, service levels and dedication to Restorative Practice; myRJ provides the solution to your needs.

Whether you just starting out with Restorative Interventions or a seasoned practice our system will allow you to stay compliant against the General Data Protection Register ("GDPR") Rules and Regulations.

Low cost, High Impact, Time Saving and Easy to use are just some of the benefits of using myRJ Lite.

## About myRJ

myRJ – Restorative Justice Case Management Software, myRJ offers a secure data portal, which can be accessed by all agencies involved in a Restorative Intervention.

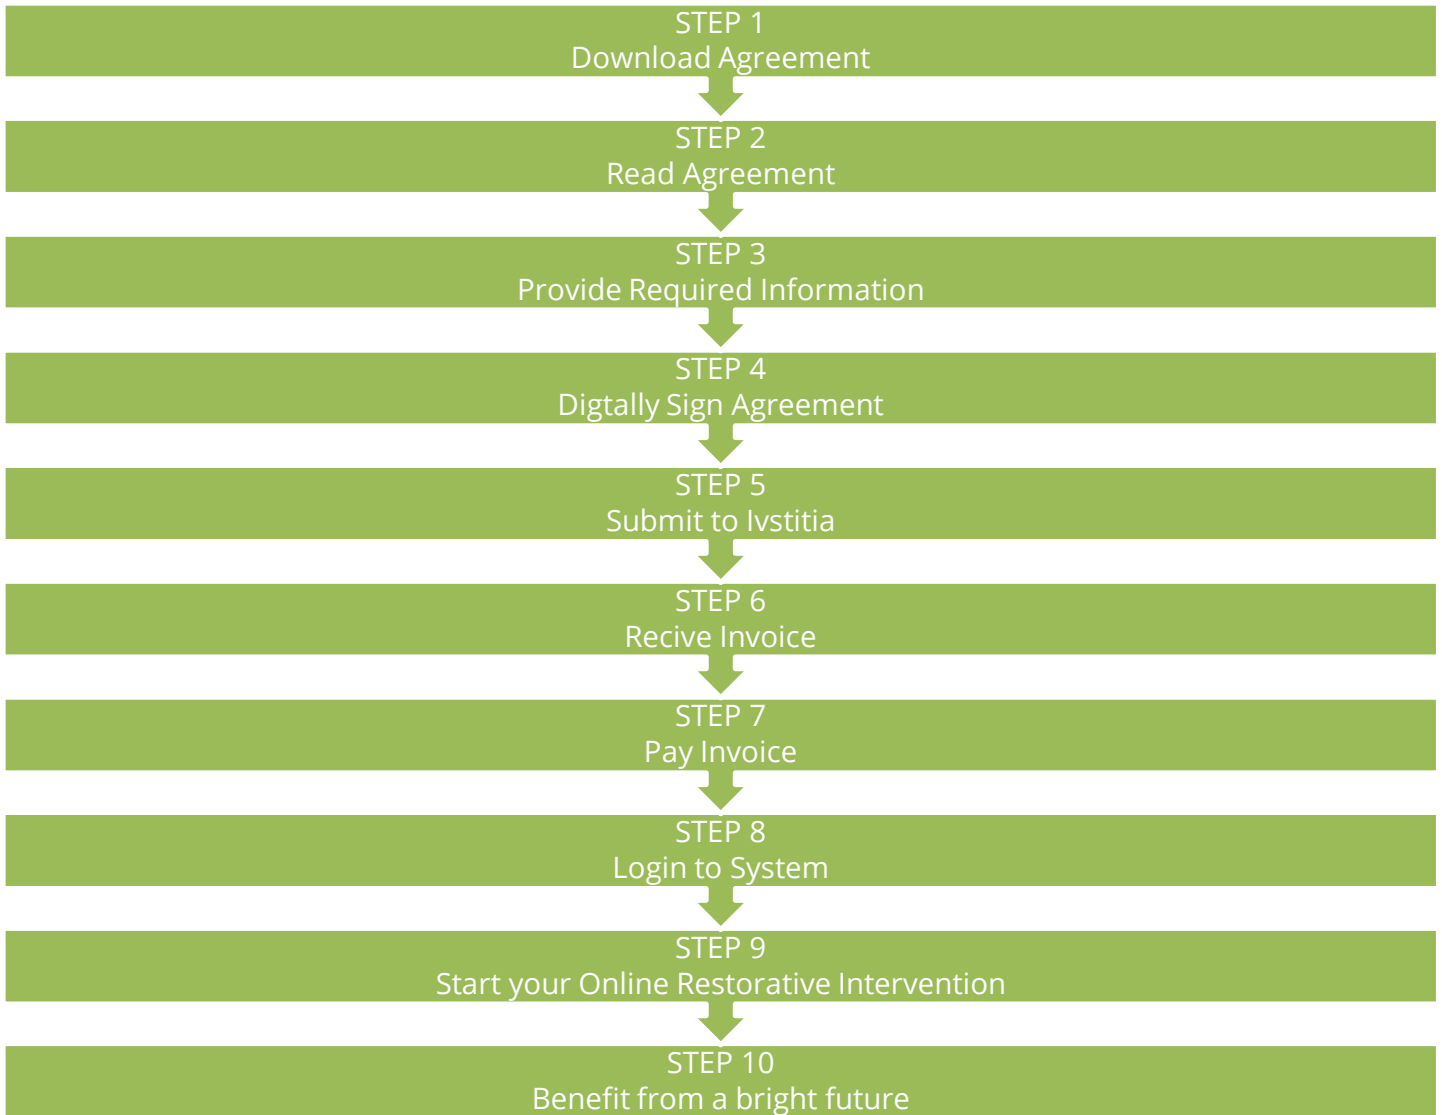

From all Law Enforcement Agencies and Local Councils to Social Services and Community Outreach Projects, everyone can report and track progress in the easy to use secure cloud based case management system, allowing information to be shared seamlessly and free from the risk of it becoming lost or intercepted in transit.

Accessible using any digital device and from any location with an internet connection, myRJ's Restorative Justice Case Management Software is secure, safe and reliable with all the information held in a single government accredited data centre, offering significant time and cost savings.

myRJ also benefits from regular backups to ensure full audit trails are available and with up-to-the-minute information can provide fast and accurate real-time data and instant statistical results.
